1. The descriptive roll of Elephants has been forwarded with D.O. dated 22nd Instant. In continuation thereof, I beg to state that the Elephants were captured on the 5th August '02. The Expenditure incurred from the beginning of the operation up to the date of capture was within the estimated amount. The herd was to be kept in the enclosure for 10 days in anticipation of His Excellency the Viceroy and Their Highnesses visit from 6th to 14th maintaining about 600 men as will be explained hereafter. The services of local hunters were employed in watching around the Kheddas collecting fodder

for newly captured elephants
and forming camps etc.
From the day on which
the elephants were roped
till the day on which orders
were received to close down-
-ation, no separate expenditure
has been incurred for their
fodder with the exception
of the value of 50 odd
seers of paddy daily for the
feed of new elephants as
the local & foreign hunters
were employed for this pur-
-pose. Since their removal
from forest a small expenditure
is incurred in purchasing
green cholum stalks and the
above quantity of paddy
and other grains to supplement
the fodder collected by
foreign hunters as mixture
of fodder is required in the
present condition of new
elephants.

2. On receipt of telegram
dated 18th Instant to close

operation the services of
local hunters were dis
pensed with. While a
arranging to despatch
foreign hunters back the
first cited telegram wa
received and therefore t
foreign men were debarr
making arrangements fo
a second capture and
using their services for
collecting fodder while the
were required in the Bid
3 Orders are expected to
drive the herd bracketed on
for which a telegram is se
today.

4. A statement of advan
made to me till now lobet
with a comparable statem
showing the Estimated d
amount, actual Expenditu
with increase or decrea
under several heads ar
herewith submitted. It
may be observed that a

sum of Rs 17750/- was
Estimated but Rs 23396-15-3
is the cost of the operation
giving a net increase of
Rs 5646-15-3 over the
Estimate. Of Rs 231-4-0,
from and to trained to
Assistant Field Inspector
advances to him from the
Dewan's office Contingencies
when he was sent for at
first for being consulted
and Rs 720/- sanctioned
towards increased rate of
pay for Bengal hunters
are added to the Estimate
the total will be Rs 18701-4-0.
Then the increase of Expendi-
ture over this sum will be
Rupees 4695-11-3, the cause
thereof is explained below:—

Rs 757 is shown as an in-
crease under pay of
foreign hunters. This has
been incurred under the
sanction of the Government
as foreign hunters refused

to serve on rest very.

An increase of Rs 2065-4-0 is shown under wages of local shikaries. This Extra Expenditure had to be incurred on account of their detention till orders were received to close the operation. In the estimate was Batta for local hunters & Batta for foreign hunters were provided for for 20 & 45 days respectively while the number of days has increased by 20 & 17 days respectively on account of detention. In addition to this some Extra Soligars were to be employed to watch several ghats both on the Billigiri Rangan Hills & Chamrajnagar Forests to prevent Elephant herds from escaping to British Territory. This idea was not thought of when Estimate was framed. Provision was made for Bengal mode of capture at Madras but under several

8

circumstances orders were received to confine myself to Chaumpaloor. The Elephant herds in this forest having been found impracticable to be kept in surround for a longer period, the Kheddas had to be repaired without any additional cost and the Cabbine effected. Hence the increase. However the Camp ground has been cleared roads were formed in Camp, sheds & stables were built, 3 miles of trunk road was constructed after clearing thick jungle, and fodder collected for new Elephants without separate cost by using the services of these men. If separate fund has been spent on these works it would have come to the same amount.

An increase of Rs 125-1-2

is incurred under pay of foreign mahouts and Jamedars. This has occurred owing to the employment of some temporary mahouts in lieu of permanent men who were drafted for tracking and driving Elephants

The cause of Extra Expenditure under Pay of local and foreign hunters is due to their detention as explained under the head of wages of these men.

The Extra Expenditure under Temp always increases according to circumstances which calls for no work.

No small increase under sundries also calls for no remark.

The Estimated amount under the head of supervision of Establishment Exceeds by Rs 1114-2-0 owing to the detention of Establishment bill now.

An item of Rs 1500/- provided

for present though not spent is shown as Expenditure as it will have to be utilized after the 2nd Capture.

5. An Estimate for a second Capture giving details of upkeep of Elephants already captured together with those to be captured and for the cost of supervision Establishment amounting in all to Rs 10,650/- is herein enclosed. The first two items viz 4,225 and 4200/- respectively for operation and upkeep of Elephants are to be actually incurred. If, after the 2nd Capture Government can make other arrangements for the early disposal of the Captives the amount provided for under supervision Establishment may be greatly reduced.

orders should soon be
based for the disposal
of Elephants already
captured.

6. Arrangement is made
to keep them in Khanuraj-
nagar till second capture
is made as this will enable
myself and Field Inspector
to look after them frequently
while engaged in operations
placing Rauber Khedda
materials, inchargé of them,
aided by Experienced
Jamedars.

7. As already mentioned
in my D.O. some people of
Kolabus offer to purchase
3 calves and the Chief Forest
Officer Jeypore Samanthanna
has applied for 5 baggale
Elephants. If they can locally
be disposed of, their transport
Expenditure to Palghat will be
saved. The correspondence
about Jeypore application
is submitted through the

the Assistant Secretary to the Dewan.

8. If second capture is ordered I will have to obtain Messrs. H. Sreeniva Rao, Mullingi and Boreda Venkatnarnabba also till capture is effected.

9. I beg to enquire whether the elephants should be fully trained or sold raw as they are at present leaving the training to the purchasers. If they are to be trained before sale, training money will have to be sanctioned as provided for in the Estimate, otherwise that amount will not be required.

10. It should be decided before hand whether the Palace wants any Elephants out of the present batch.

K. Shamiengar

The sooner the captured animals are disposed of & the operations closed the better — Mr Shamiengar & his subordinates have done excellent work. I do not know why a second capture is deemed desirable — whether the captives should be kept alive or after training is a question for Mr Shamiengar to decide from a financial

OFFICE OF THE DEWAN OF MYSORE.

Record of Cases Coming before the Council of H. H. the Maharaja.

Subject—(Clause III of Schedule.)

Khedda Operations.

Secretary's Note.

In his telegram dated the 28th and memo dated the 29th August 1902, Mr. K. Shamiengar estimates the cost of a second capture of elephants in the Chamarajanagar Forest at about Rs. 42,500/-. This is stated to be exclusive of Rs. 4,500 required for the up-keep of the elephants already captured as well as those to be newly captured, and of Rs. 2225 for maintaining the Supervision establishment. This requires Sanction now.

Mr. Shamiengar states that if after the 2d capture, Govt can make other arrangements for the early disposal of the captives, the amount provided for under "Supervision Establishment" may be greatly reduced

COUNCIL CASE.

Opinions of the Dewan and Councillors.

The additional grant according to this estimate may be sanctioned.
